Professional Summary

A motivated and enthusiastic Full Stack Intern with a strong foundation in modern web development technologies. Eager to contribute to a forward-thinking company where I can apply my skills in Python, Java, and JavaScript frameworks to solve real-world problems and grow as a software engineer. My goal is to secure a challenging role that fosters continuous learning and professional development.

Education

Chaitanya Bharathi Institute of Technology   *Hyderabad, Telangana*
Bachelor of Engineering in Computer Science   *Graduation: June 2027*
GPA: 8.13/10.0

Experience

Full Stack Intern   *Future Interns, Remote*
August 2025 – Present

- Developed and maintained web applications using a full-stack technology stack.
- Collaborated with a team to build features, debug issues, and improve application performance.
- Gained hands-on experience in building robust and scalable applications from both the frontend and backend.

Projects

Student Management System   *Technologies: React, Node.js, Express.js, MongoDB*

- Designed and developed a full-stack web application to efficiently manage student data, including enrollment, grades, and personal information.
- Implemented a responsive frontend with React, providing an intuitive user interface for administrative tasks.
- Built a RESTful API with Node.js and Express.js to handle data requests and integrated it with a MongoDB database for persistent storage.

Netflix Clone   *Technologies: React, The Movie Database (TMDb) API*

- Created a dynamic single-page application that mimics the user interface of Netflix, showcasing movies and TV shows.
- Integrated with The Movie Database (TMDb) API to fetch and display real-time movie data, including posters, trailers, and synopses.
- Demonstrated proficiency in fetching data from a third-party API and managing state within a React application.
